

## Clark Forklift Parts

Clark Forklift Parts - Performing globally, there are currently 350,000 Clark forklifts and lift vehicles in operation, with upwards of 250,000 of those in service in North America. Clark has five main lines of lift trucks across the world, making it one of the most expansive companies in the industry. Heavy duty vehicles ranging from 1,500lb to 18,000lb capacities, dual fuel, gas, LPG, hand-driven lift trucks, narrow-aisle stackers and electric riders are a few of their specialties.

Clark Totalift has 20 unique designs of lift trucks, with components covering more than 120,000 specific parts for all of its automated equipment. Your regional Clark Dealer is your total source for availability of all your parts requirements offered by Clark Totalift.

Clark's exceptional Parts Distribution Centers are conveniently located in Louisville, Kentucky, which serves both their consumers and sellers in North America, and Changwon, South Korea, which handles their Asian sellers and consumers. For over 90 years, Clark has surpassed industry standards, being one of the most actively advancing manufacturers. Motivated to offer the highest level of value and service to our customers, Clark remains on the leading edge when it comes to enhancing efficiency and benefiting performance.

Internationally, Clark has one of the most amazing dealer support networks. With over 550 locations globally, seller representation in over 80 nations and 230 locations in North America, their high level of dedication to their customers predominates the material handling market.

Clark proudly remains an innovative leader of the material handling industry, pioneering protection features such as the worker restraint system. This exceptional dedication to safety is currently a standard feature on every lift truck.

Clark's relentless goal to boast the No. 1 Quality system in the industry is proudly demonstrated by ISO 9001 - Clark, is the first lift truck maker across the world to be certified with the globally accepted quality standard ISO 9001 for each and every one of their production facilities. Additionally, the ISO 14001 Environmental Stewardship System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement enables Clark to be ready for any environmental limitations, thus placing them in a dominant market position.

Clark has preferred the extremely economical and beneficial structure of "Lean Production" for its assembly facilities and use of resources. This system was developed to acknowledge the most successful method of manufacturing facility management and ensuring maximum proficiency. Clark has concluded this transition of its Korean plant. COPS which is Clark Optimized Production System, equally focuses on quality of product and services and manufacturing efficiencies.

Clark's product engineers and suppliers communicate together to enhance the efficiency and brilliance of their products while minimizing expenses. The new value engineering program combines progressive product development and delivers superior consumer support and service within the industry.
