

TCM Forklift Parts

TCM Forklift Parts - In the international business of material handling, forklifts play a major part for transporting industrial goods. Primarily innovated as industrial vehicles in the 1930s in the U.S., forklifts gained recognition after World War II during the 1940s. Becoming an efficient and reliable means to material handling solutions, the need and practicality of these machines spread worldwide.

In nineteen forty nine, started by Mr. N. Niwa, the first Toyo Carrier Manufacturing Company Limited, which was later named Toyo Umpanki Co, was established. Currently the business is simply called TCM Corporation. Over the years, TCM forklifts have become a global leader in lift truck manufacturing and have built a solid reputation with the business. TCM started building forklift manufacturing sites outside of Japan in the 1980s and is currently engaged in forklift manufacturer at three foreign factories in China, the United States and Europe.

TCM proudly makes several models of industrial forklifts with over 50 years of accumulated expertise and technology, making their products recognized and used all around the world. Characterized by energetic staff and strong initiatives, TCM continues to look toward the future and aims to become a world-class leading company.
