

## Concrete Hoppers

Concrete Hopper - The self-dumping hopper accessory could automatically trigger to both dump and release as the bumper release contacts the side of a dumpster. After dumping is done, the hopper is able to go back to original upright and locked position. This piece of machinery even comes together with a cable which enables operation from the seat of the lift truck so as to have the option of manually unloading the hopper. There is a locking chain provided to secure the hopper to the fork truck. This product is made with reliable and consistent robotic welds for maximum strength. The forklift dumping hopper even has a blue powder coat finish to maintain durability.
