

Rockwell Part

Rockwell Parts - AxleTech International is a premier provider in the world of specialty vehicle drive-train systems and components together with off highway vehicles. The business prides itself on being its clients' preferred supplier. AxleTech strives to exceed and meet their clients' expectations for quality, service, technology and delivery. They believe in working within an atmosphere which encourages the utmost integrity with empowered teamwork, along with a unrelenting pursuit of results.

AxleTech International falls under the umbrella of General Dynamics. They put great emphasis on being an environmentally conscious business and providing a safe atmosphere for their employees to work in. Additionally, they have applied a lot of programs within the company in order to help convey these values in their business policy. AxleTech gladly shares this policy and welcomes interested parties to provide them with whichever comments or questions, because they are happy to promote and share this policy with a greater understanding of their efforts. They are really committed to preserving and improving the natural world. AxleTech has an EHS program which not just protects the natural environment but which even actively protects their neighbors and workers also.

AxleTech prides themselves as being a ground-breaking drive-train solutions provider. They specialize in designing and manufacturing planetary axles used for both military and commercial applications. These applications vary from airport ground support to construction equipment. AxleTech specifically designs axles to meet particular application demands. They have over one thousand various axle specs within their existing offering. With more than 100+ years of history and skill, AxleTech proudly supplies the most complete solution for whichever of your axle needs. The business is well known in various military and commercial applications. They offer complete axle assemblies used for aftermarket replacement requirements, along with servicing axle requirements for OE production. Their high mobility ISAS have further details that could be found in the "ISAS" product collection.
